

ToyHou.Se

Welcome To

Beekeeper's Bout

3 distinct rows to group elements

*more differences in text size to create hierarchy

Top | Characters | Contact

Dropdown of other Tools

User of site can customize

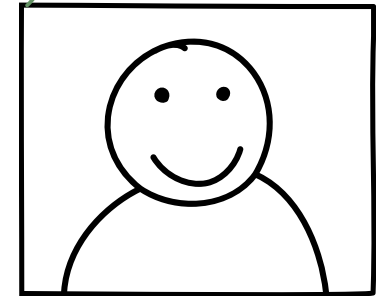

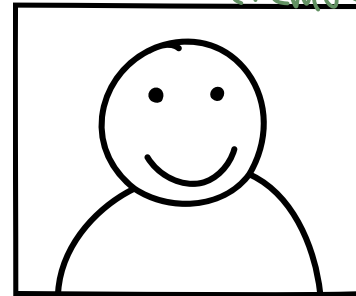

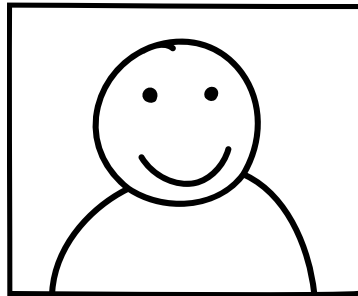

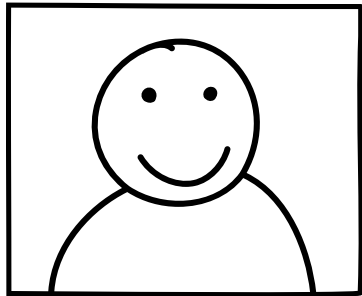

- Worlds (Story I guess?)
- Art Gallery (No text! Only pictures)
- To main site of Toy House

Most important info across middle

welcoming title
(less database-like)

Simple nav. bar
with duplicate/unused
options removed
(remove clutter)

Some other
tools
can
stay
here

Character #1

Character #2

Character #3

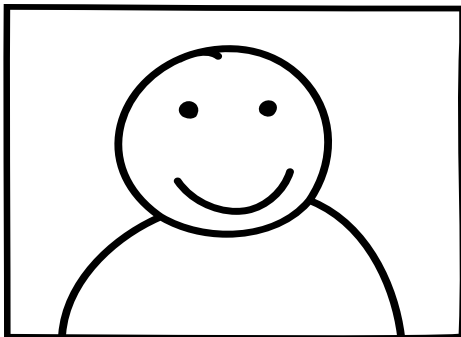

Character #4

Click to pop-up / expand character profile (remove extra buttons ☆ and 📷)

descriptive titles

whats up gamers

pls dont use my characters kthxbye

twitter: @largeonions

commissions: open

* Alt tags for
All images!

Comments YAY

Nice Work

Great Job

Bee Happy

Smaller comment
section so users
can focus on

characters and creator

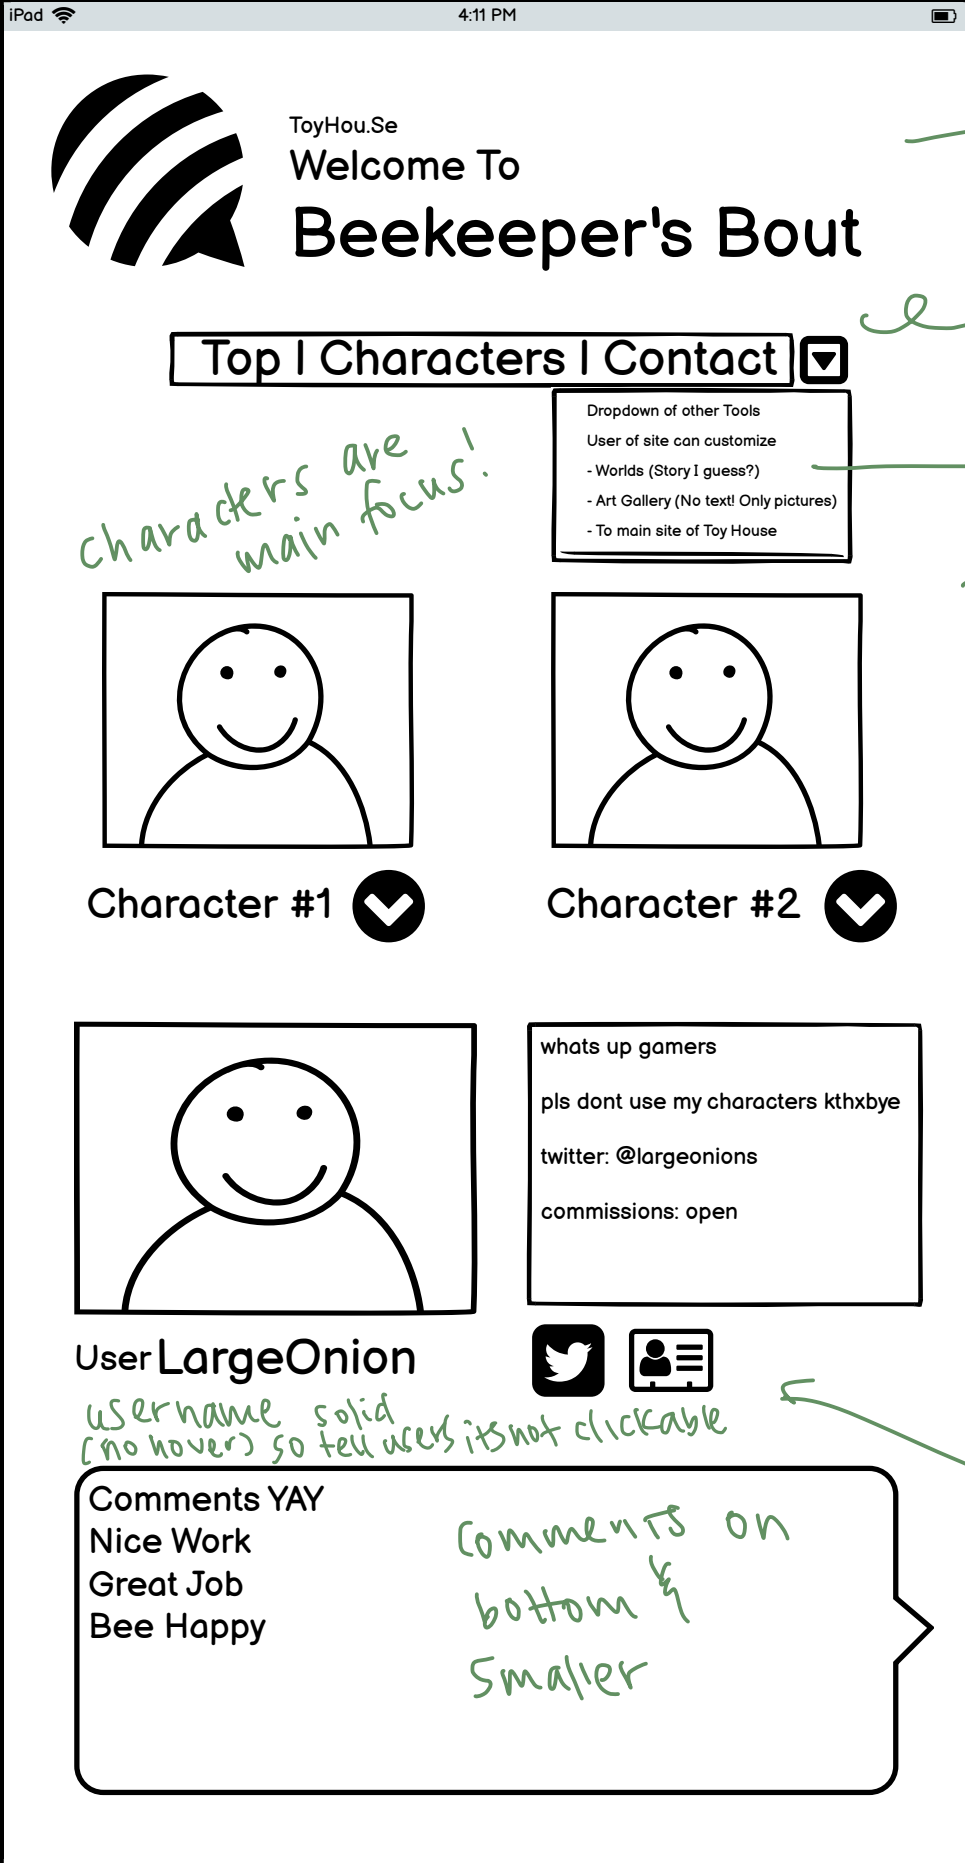

User LargeOnion

easy links to social media
to promote clicking into them

creator / user profile on bottom

* Alt tags for ALL images!

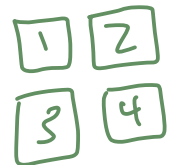

→ resize to fit on top

→ table can still use nav bar

characters are main focus!

→ detailed tools

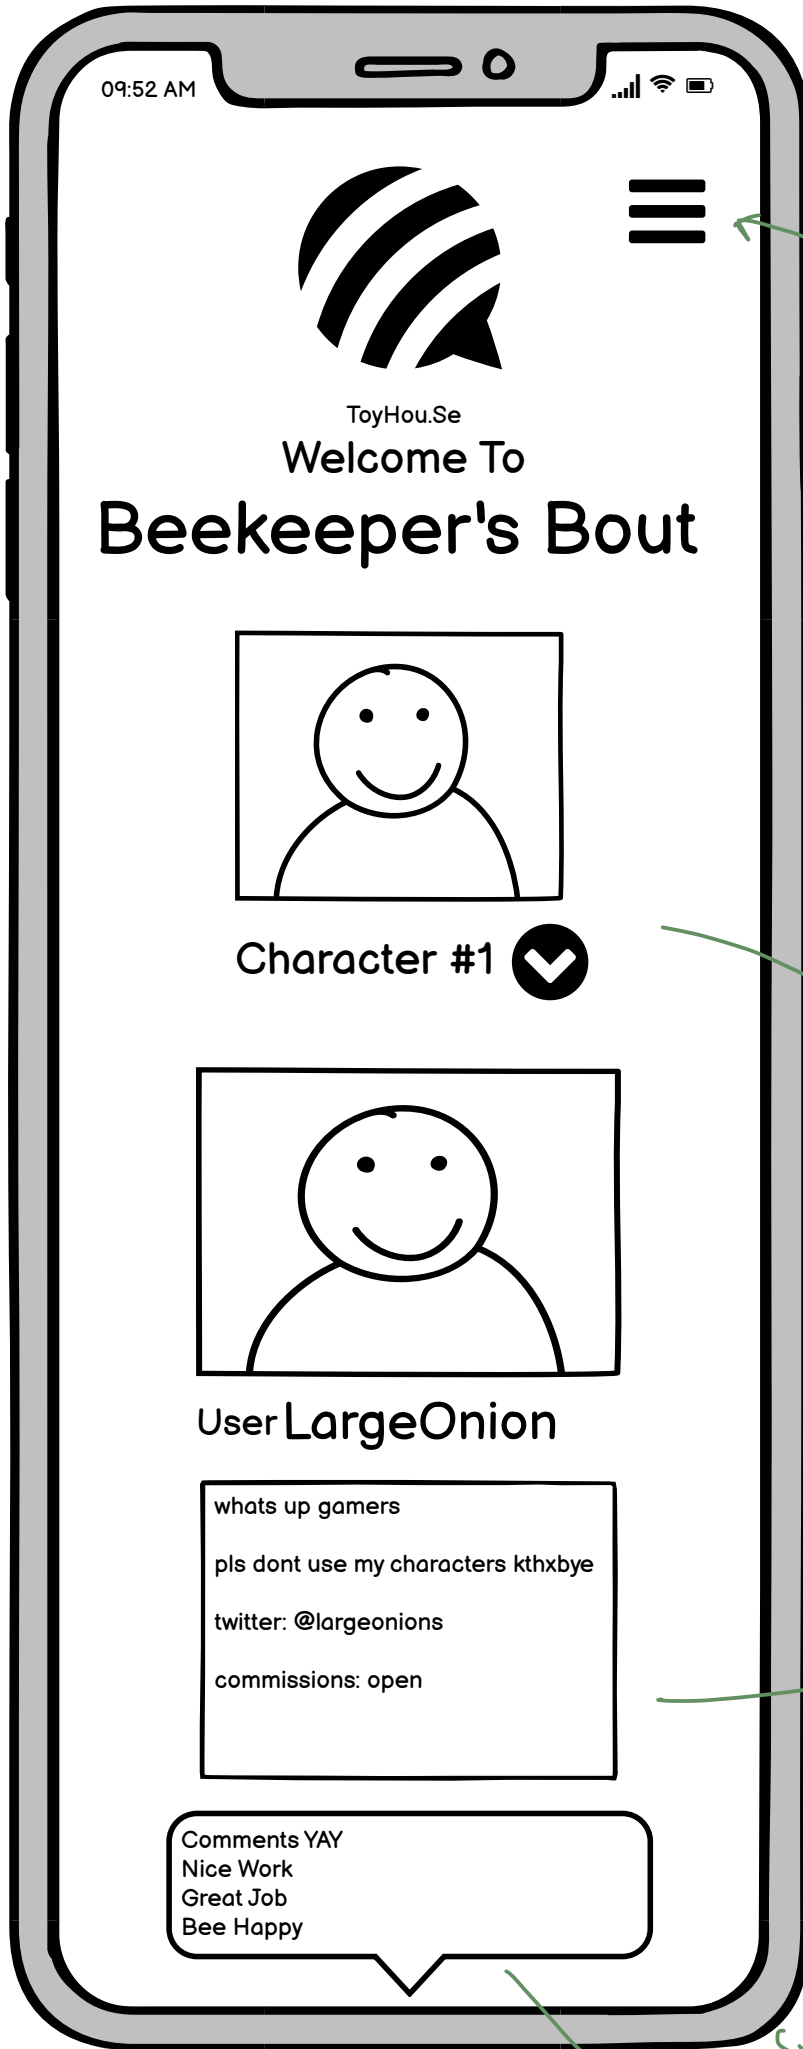

only 2 characters shown here due to space but other 2 will be below

grid instead of row so image of character stays as focus of site

→ social media links stay large and easily clickable

Comments on bottom & smaller

* Alt tags for
ALL images!

unlike original with
2 confusing menus,
Just 1 clickable menu

Top | Characters | Contact

Dropdown of other Tools

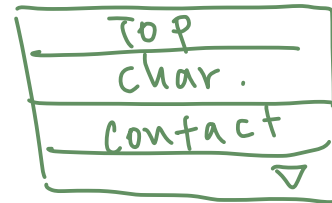

User of site can customize

- Worlds (Story I guess?)

- Art Gallery (No text! Only pictures)

- To main site of Toy House

menu expands:

column of
characters

dropdown

* Try to use warm
colors and contrast
between background and
text.

Author description
next to author
name and icon so
not as confusing

* characters ranked
from main to sub
instead of ordered
by date of
creation
(establish hierarchy)
